- Can forward or back

Enable the student

Microphone and Camera

- Must have headset or feedback for microphone and webcam for camera

- Revert to Camera- if no microphone- or vice versa

- Use Chat if nothing else

- Raise Hand

Participant Rights

- Attendee Options; Participant Rights

- Question and Answer Pod

QUESTIONS AND ANSWERS

- If using with an online class for question and answer session.

- Come prepared with your questions (have in separate Word document or build in the meeting a head of time)

- Do Question/Answer Session (assign etc)

- Give grades by saving as RTF (EXPORT LOG)

POLLS

- Instead of Clickers – use Polls to see if students are getting concepts – can be anonymous by using Student number to log in as guest

- Get participation grade

- Broadcast poll or not

- Survey tool

POLL prefab

- Build the poll before you start the class:

- What is the value of Pi to 6 digits?

WEBLINKS

COMPUTER

- Click on Weblinks – they watch while classroom watches

iPad/iPhone

- Download Youtube

- Have google account

- Watch youtubes – need to give url in NOTES

Student can present

- Make student a presenter and share their screen

- Presentations in an online class

- Short but effective

RECORDING

- Save the recording

- Make barcode if like
